

# Crossing

with the

# RED and GREEN man

**Puffin and Pelican crossings both have a red and green man.**

- Sometimes the red/green man is on the pole next to you and sometimes you can see it on the other side of the road.
- If the red man is lit up, push the button and wait where you can see the lights and the traffic.
- Once the green man shows, look and listen to make sure the traffic has stopped.
- If the traffic has stopped, you can start to cross. Cross the road between the studs - do not run.
- If the green man is not showing or if he is flashing on and off, do not cross!

**STEPPIN' OUT  
PUZZLE**

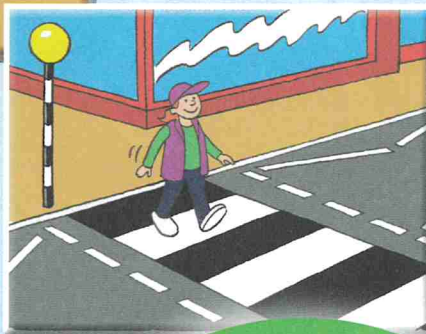

## CrACK the CODE!

Read this hidden message by working out the code!

Here's a clue, A=1 and Z=26

23 1 9 20 - 6 15 18  
- 20 8 5 - 7 18 5 5  
14 - 13 1 14

### How to use a Zebra Crossing

- Wait on the pavement near the kerb until all the traffic has stopped before you start to cross.
- After traffic has stopped from both directions, walk across on the black and white stripes.
- Keep looking all around and listening in case a driver has not seen you.
